

# Celestial 39" Dia Extra Large Contemporary Pendant Light

## Finish Options

Silver Leaf

## Product Description

Celestial Collection, stunning pendants and sconces inspired by the rings of Saturn and cascading stars on the galaxies. The metal rings in silver-leaf are suspended by narrow silver-leaf metal rods and contain incandescent lights shielded by finely perforated metal diffusers, and casting light on the falling strands of hand-cut crystals cascading at the center. Each crystal is individually coated with a fine thin layer of silver to create a reflective surface while the crystals are still transparent. The light from the rings reflects off the crystals while more lights inside the cascades light the crystals from the within. The effect created by the inner lights and the outer lights on these unique crystals that are both reflective and transparent, is celestial, elegant, and dramatic, epitomizing an aesthetic approach to lighting fixture design, while providing an exquisite focal point in today's interiors. DIMENSIONS: H 67" x W 39"

MIN/MAX HEIGHT: 71 - 139

WEIGHT: 95 LBS

BULB: B-10

WATTS: 60
