

Diocese of Paterson - Cathedral of St. John the Baptist
Type: F-29

(Pre-Restoration)

Work Scope:

- Ultrasonic clean/walnut blast to remove excess corrosion and expose original underlying finish. Apply brass rub and patina as required to blend existing finish. Application of a lacquer top coat.
- Clean existing glass shades to remove any surface residue.
- Replace and rewire all electrical components with UL listed products and test in accordance with UL standards. Medium base sockets to be utilized.
- Repair all minor mechanical defects.
- No replacement parts or components.
- Replace all shades with similar style. Samples to be provided.
