Historic Lighting Restoration

Grand Light has restored lighting fixtures of every scale and design. Our trusted restoration experts have years of experience recreating and caring for all materials-metals, wood, plaster, resin, tin, glass and more-while maintaining a keen eye for historical accuracy. We are capable of reproducing components, shapes and finishes down to the smallest detail. From professional diagrams and plans for your project to rewiring fixtures to UL standards, our specialists have proven their reputation as exceptional lighting restorers.

OUR CAPABILITIES

Grand Light, located in Seymour, Connecticut, is an experienced restorer of historic lighting fixtures and a manufacturer of custom lighting fixtures. We maintain discriminating concern for preserving historic lighting and architectural designs of all types, when incorporating newly developed light sources.

Our lighting restoration and custom lighting capabilities include research for historic accuracy, drawings, mock-ups, metal fabrication, polishing, painting, hot and cold patina application, welding, abrasive blasting, refinishing metal components,

glass fabrication, replacing all electrical components, rewiring and testing in accordance with UL standards. To discuss our capabilities in more detail, please call us at 1-800-922-1469.

ENGINEERING - Our process begins with reviewing existing documentation including sketches, architectural drawings, historical photographs, and an on-site inspection to gather the full scope of the project requirements. From there, Grand Light will develop a detailed proposal. When required, Grand Light also develops conceptual sketches and drawings. As required Grand Light conducts research to assure the historical accuracy of all historic projects.

Custom Lighting

Grand Light has created custom lighting fixtures of every style and for every application. Our team of specialists is comprised of professional metal workers and glass blowers whose mission is to create or re-create lighting fixtures of the utmost quality and authenticity. Our lighting fixtures are wired in accordance with UL standards, and our custom lighting team stands confidently behind their work with years of experience and dedication to quality craftsmanship.

MECHANICAL OVERVIEW - Grand Light's mechanical capabilities are an essential part of the restoration & custom lighting process. Utilizing only the best materials, Grand Light strives to ensure only the highest quality of standards go into crafting each lighting fixture; from minor components to the complete fabrication of full sized lanterns or other custom lighting fixtures.

FINISHING PROCESSES - As a part of the restoration process, our artisans explore the intricate details of preserving the historical integrity of lighting fixtures including color matching and sheen of the original finish. Custom lighting finishes are available in custom painted colors, sheen, and textures as well as custom patina colors on bronze, copper, and brass components.

ELECTRICAL OVERVIEW - Grand Light's electrical capabilities are often an essential part of the restoration & custom lighting process. Utilizing only UL listed products, Grand Light strives to ensure only the highest quality of standards go into finalizing each lighting fixture; from the rewiring of luminaires, to the installation of modern lamp technology, and the custom conversion of gas powered fixtures to electric.

CRYSTAL RESTORATION - Grand Light's lighting restoration team specialize in the cleaning, repair, pinning, stringing, and replacement of crystal components of varying sizes, shapes, and cuts. Our artisans have decades of experience restoring crystal components on chandeliers, sconces, ceiling fixtures, and pendants from a variety of clients ranging from private homes, hotels, churches, museums, government, universities, and more.

ON-SITE SERVICES - Grand Light's on-site capabilities are often an essential part of the restoration & custom lighting process. Grand Light specialists strive to ensure historic lighting fixtures are removed, cleaned, repaired, packed, transported, and installed in the safest and most conscientious methods possible. Our approach puts our customer first, with flexible on-site service scheduling offered at the clients convenience and without causing any disruption to daily activities. Work areas are left in the same manner it was found prior to leaving a site.

OUR FACTORY

Grand Light's UL rated, 12500 square foot restoration facility is located in the heart of New England, in Seymour, Connecticut. Located only a short distance away from some of the country's oldest cities such as New York, Boston, and Philadelphia; Grand Light is the perfect solution for lighting restoration and custom lighting projects of every scale.

AMERICAN ARTISANS AT WORK PRESERVING HISTORY

Using our capabilities appropriately and carefully is something we pride ourselves on. From beginning to end, working with Grand Light means working with a team of professionals who will give your project personal attention. We like to keep our clients involved as we work for them, and keep them informed of our progress. It's important to us that a client who has entrusted us with a restoration be comfortable with the work we do for them; therefore, we make ourselves available to them at all times - ensuring complete satisfaction from beginning to end. Most restoration projects's progress are documented on GrandLight.com as a convenient means for all interested parties to view real-time updates.

GRAND LIGHT HAS WORKED WITH A WIDE RANGE OF CLIENTS FROM AROUND THE COUNTRY INCLUDING GOVERNMENT, RELIGIOUS, EDUCATIONAL, AND CULTURAL INSTITUTIONS.

Since 1929, Grand Light has been serving the lighting needs of professionals with a vast range of technical services and a dedicated knowledgeable staff. We have restored, replicated, and manufactured custom lighting fixtures at every scale. Our team has worked with a wide range of prestigious clients from around the country including the Architect of the Capitol, National Park Service, Marriott International, Yale University, Commonwealth of Massachusetts, Harvard University, United States Military Academy, and the Otesaga Resort Hotel.
