

# 1001 5th Ave - Exterior Lanterns

Type: 1

(Pre-Restoration)

**Description:** Exterior Lantern

**Location:** Front of Building

**Lights:** 1

## Work Scope:

- Fixture to be cleaned/walnut blasted, apply patina as required to blend existing finish, application of a UV resistant lacquer to all metal surfaces. The fixture has existing blemishes that we will work to minimize, but in many cases, will remain.
- Ultrasonically and hand clean existing diffusers. Reinforce all weak copper foil, solder, and antique to blend with existing.
- Repair the top of (1) lantern where it has separated and all other mechanical defects including threaded rods nipples, etc.
- Replace and rewire all electrical components with UL listed products and test in accordance with UL standards. Mogul base socket to be utilized.
- 12" lead to be supplied at the end of the fixture.
- All anchorage, i.e mounting bolts to be provided by others. Grand Light will patina/paint them to match the finish.
- (8) replacement slumped glass panels on top of lantern. A close match will be provided.
- (2) steel brackets refinished with a satin black.
- Replace (7) damaged upper slumped panels, (1) damaged mid section panel, and (1) damaged bottom slumped panel.
